

Report on Interaction Meeting with Prof. Anurag Garg, IIT Bombay

Date: 26th August 2025

Time: 12:00 PM

Venue: HOD Office, Department of Chemical Engineering, MNIT Jaipur

An interaction meeting was organized with **Prof. Anurag Garg**, Department of Environmental Science and Engineering, IIT Bombay, during his visit to MNIT Jaipur for the PhD viva-voce examination of Mr. Aamir Baig, under the supervision of Dr. Lovjeet Singh and Dr. Sonal (IIT Patna). The meeting was held on **26th August 2025 at 12:00 PM** in the HOD Office, Department of Chemical Engineering.

The session began with a warm welcome by **Dr. Rajeev Dohare, Head of the Department**, who introduced Prof. Garg to the faculty members. This was followed by brief introductions from all faculty members.

Prof. Garg shared his insights on the **emerging challenges of solid waste management in academic campuses** and highlighted potential solutions. He emphasized the important role of **chemical engineers in developing sustainable technologies for solid waste management**. The discussion included practical ideas to reduce waste generation in hostels and other campus facilities.

The meeting also provided a platform to explore **possibilities of academic and research collaboration** between IIT Bombay and MNIT Jaipur. Faculty members actively exchanged ideas, particularly in the areas of waste management, sustainability, and environmental engineering.

The interaction concluded with a positive note on strengthening collaborations and identifying future opportunities for joint research initiatives.
