2. Introduction

The *Stock Market and Fundamental Analysis Workshop* was organized by the Economics and Finance Club, Finanza, with the aim of introducing students to the fundamentals of stock markets and equity analysis. The workshop was designed to provide participants with a clear and structured understanding of how stock markets function and how informed investment decisions can be made using fundamental analysis techniques.

The session focused on building a strong conceptual base for beginners while encouraging students to explore equity markets with a rational and analytical approach.

Event

Theme:

Developing foundational knowledge of stock markets and equity analysis.

Objective:

The primary objective of the workshop was to familiarize students with the basics of stock market operations and introduce them to fundamental analysis tools used to evaluate stocks.

Target

Audience:

Undergraduate students from various disciplines with an interest in stock markets, investing, and financial analysis.

3. Event Highlights

Description:

The workshop was conducted in an interactive classroom setting, ensuring active engagement from participants throughout the session. Key concepts related to stock markets and investing were explained in a simplified manner, making them easily understandable for beginners.

Participants were introduced to the functioning of stock markets, the process of buying and selling stocks, and the role of stock brokers. The session further covered methods to differentiate between good and bad stocks using fundamental analysis. Special emphasis was laid on analyzing financial statements and understanding important financial ratios used by investors to evaluate a company's financial health.

The structured flow of topics and real-world examples helped participants connect theoretical concepts with practical market applications.

Topics Discussed:

- Introduction to the stock market
- Buying and selling of stocks
- Role of stock brokers
- Identifying good and bad stocks
- Analysis of financial statements
- Important financial ratios

Participation:

The workshop witnessed enthusiastic participation from over 70 students, reflecting strong interest in learning about stock markets and equity analysis.
